

We love snowboard shops. Besides providing a livelihood for our friends and family, shred stores with doors are places to coffee up in the morning or share tales of defeat and glory at the end of an epic day. Plus, when you break your binding, you need a local shop that knows and cares enough to get you back out on the mountain ASAP. Why do they care? Because they are snowboarders just like you are. All of these are great reasons to support your local snowboard shop by spending your dollars there. If you need one more reason, here it is: Airblaster is offering special limited color ways that are **ONLY** available in **STORES WITH DOORS**. They're not for sale online. Anywhere. We've pulled aside some of our most awesome colors, prints, and styles and reserved them for the establishments that have laid the foundation for snowboarding since day one: **STORES WITH DOORS!**

AB/BC JACKET

Brandon Cocard is a machine. What kind of machine? The kind that pops out 9 months after a Gibson Les Paul guitar has a three way with a Nintendo and a Rubik's cube. Now go check out his video parts in the latest Capita or Absinthe movie, then purchase, examine, and utilize the AB/BC Jacket to absorb traces of residual magic.

CRANKY PANT

Nick Dirks' pro model pant. Ever been just a total crab dick to someone? It happens, especially if you haven't eaten enough food lately, your inner hangry is on full snap mode, and your pants are too tight. Our recommendation? Get some food in you, put on your trim-yet-unrestrictive Cranky Pants, apologize, and then get back to Staying Wild with your buddy. Prevent future outbreaks of crabbiness? Pack snacks in your Cranky Pants, and keep your crab dick on airplane mode.

Cobalt

Cobra Dogs and Airblaster are brothers, half by blood and the other three quarters by pure brotherhood. Ten years ago on a trip from Portland to Seattle to see a snowboard movie, two dudes brainstorm dry humped each other until a seed was planted. That seed was Cobra Dogs. Those dudes were Cory Grove (Weiner Man) and Jesse Grandkoski (Airblaster Dad). They each squirted their DNA into the Cobra Sauce, and the rest is spicy snake history. If you haven't blasted your taste buds with a Cobra Sauce-soaked Hot Snake, do yourself a favor: Make a pilgrimage to Mt. Hood this summer and drop your mouth panties for the ride of a lifetime. The 2016 Cobra Doggle is an equally tasty treat made from the mingling of Cobra Blaster DNA. This is what real collaborations look like: Throw out the rules, completely invade each other's personal logo space, and really get down to swapping sauce. That's how brothers do it. Mmmmm... Cobra Doggles!
